Director's Notes

Since January, the library has made it a mission to better understand our customers and our community. We received over 200 responses from our community survey and learned about common interests, hobbies, habits, and more. We also held three focus groups to learn about the community and the library, facilitated by the State Library of Ohio. From this information, we are working on a

plan to improve library services, marketing, programming, and more. First, over 70% of our responders indicated they own a smartphone, and 20% of our website traffic is mobile. With this knowledge, we are working diligently to create and implement a more responsive website and event calendar, coming soon. Thank you to those who participated in any of the surveys and focus groups. We are always striving to better serve. **Beth Hatch, Director**
