Early Literacy Extras:

- ✓ Talk about the names of favorite foods such as "pizza, apple, cookie, ice cream" - sound out the different parts of the word "ap" and "ple" - clap while saying them separately and then together again, first slowly and then faster.
- ✓ Help your child think of words that rhyme with the names of food like "bread" (bed, head, said) and "cake" (bake, rake, take) and "juice" (moose, goose) - make up silly rhymes with these words.
- ✓ Help your child find things that start with the "P"- "puh" sound all around the house (pot, pan, pickle, papa).
- ✓ The sense of rhythm obtained from listening to songs and rhymes will help your child to identify patterns, like rhyming words, which will help them learn to read. Because songs automatically break down words into smaller sounds through tones, singing with your child is one of the best ways develop early literacy skills. Repeat silly rhymes and songs about food about food such as "Patty Cake Patty Cake" and "Peas Porridge Hot." Try some new ones too (on following pages).
- ✓ Help your child learn sequencing. This will help later on in recalling the parts of a story (beginning, middle, end). When you are preparing food together, as you child to help you remember the steps, or ask him to repeat the order in which you did things. "What did we put on the pizza first? What do we put on next?"

Pea Soup

(open hand, bend down one finger at a time)

One little pea jumped into the pot
And waited for the soup to get hot
Two little peas...

Jumped out of the pot! (quickly open hand)

Plant a Pizza in the Garden !

Try something different in the garden this year. Everyone will enjoy growing a pizza garden.

This garden is even shaped like a pizza. In your garden area, mark off a circle by putting a stake upright in the ground. Attach a 3 and a half foot piece of string to the stake. Keeping the string tight, walk around in a circle and mark the ground to show the garden's border. Divide the circle into six equal wedges.

In your pizza garden plan to grow three vegetables and three herbs. In one wedge plant 2 or 3 oregano plants. Oregano is a perennial herb that gives pizza the characteristic taste and wonderful smell. It may be used fresh or dried.

Parsley is a biennial herb that reseeds itself. Plant 2 or 3 plants in its wedge.

There are several kinds of basil varieties, but I recommend sweet basil for your pizza garden. Basil is an annual herb and you can plant 2 to 3 plants in its wedge.

Onions can be planted from seeds or sets. Select red, white or yellow for your garden. You can plant up to 30 onion sets in your garden.

Plant 1 or 2 pepper plants in your garden. Plant any green, sweet, bell type of pepper. If you like hot, spicy pizza, plan to also grow a hot pepper variety.

The final wedge will be planted with 1 or 2 tomato plants. A small paste tomato variety, such as Roma, is recommended for your pizza garden. Roma has small, oblong tomatoes with a thick meaty flesh. Larger tomatoes will need more room to grow so plant only one.

The pizza garden could be a fun project for the whole family to get involved in.
