#### A riddle…..
- Higher than a house, higher than a tree, oh whatever can that be? …a star!
The Stars
I watch the stars come out at night
(look up)
I wonder where they get their light
(shrug shoulders)
I don’t think they’ll ever fall
(shake head “no”)
So I’ll reach up and pick them all!
(pretend to pick stars from the sky)

Reach for the stars
Bend and stretch (bend low)
Reach for the stars (stretch high)
Here comes Jupiter (swing right arm to the left)
There goes Mars (swing left arm to the right)
Bend and stretch (bend low)
Reach for the sky (stretch high)
Stand on tiptoe (stand on toes)
Oh so high! (reach to ceiling)

Mister Sun
Oh Mister Sun, Sun, Mister golden Sun
(arms circle overhead)
Please shine down on me
(tap chest with hands)
Oh Mister Sun, Sun, Mister golden Sun
(arms circle overhead)
Hiding behind a tree
(cover eyes)
These little children are asking you
(point to others)
To please come out so we can play with you
(clasp hands together)
Oh Mister Sun, Sun, Mister golden Sun
(arms circle overhead)
Please shine down on me
(tap chest with hands)

Star Chart for March

Please note that East and West are NOT the “wrong way round”
if you hold the chart over your head to correspond to the view of the sky.
